Summary

Computer Science student driven by multidisciplinary projects across iOS, web, cloud backends and multi-agent AI, with Technical Sales experience at IBM. Currently at the Apple Developer Academy in Naples, Italy until June 2027. Spanish (native), English (C1).

Education

Tecnológico de Monterrey — B.S. Computer Science & Technology | GPA 90/100 — Expected Graduation: Winter 2027

Apple Developer Academy — Università degli Studi di Napoli Federico II — Naples, Italy | Sept 2026 – June 2027

Experience

IBM Mexico — June 2025 – June 2026

Technical Sales Intern — Security & Artificial Intelligence Portfolio — Mexico

- Led 3 discovery sessions and live demos for B2B prospects in healthcare, manufacturing and finance, scoping watsonx proposals.
- Designed a clinical AI assistant with watsonx.ai integrating LLMs with real-time patient data, projected to cut physician documentation time by up to 75% and information-omission incidents by 59%.
- Built no-code agentic workflows in watsonx Orchestrate for client demos, and completed hands-on IBM labs provisioning infrastructure with Terraform on IBM Cloud and Red Hat OpenShift.

Everyone Can Code + Create Chicago — City of Chicago, Apple & JPMorgan Chase — Sept 2026 – Dec 2026

App Accelerator — Chicago, IL (Remote)

- Selected for Apple and JPMorgan Chase's 12-week "Startup to 1000" accelerator; shipping App 1.0 and 2.0 to the App Store across three Demo Days with a pitch deck and marketing funnel, targeting 1,000 users at launch.

Tecnológico de Monterrey — May 2026 – Present

Data Engineer & Analytics Intern — Monterrey, Mexico

- Cut graduate-admissions report preparation from ~2 weeks of manual Excel work to a ~3-minute automated run by building Alteryx, pandas and SQL pipelines that consolidate 1M+ SharePoint applicant records by program, modality and admission route.
- Automated validation that scores every applicant against their admission-route thresholds and flags each non-compliance with 100% traceability, used by admissions leadership across every Tec campus in Mexico.

Government of Nuevo León — Secretariat of Social Development — Nov 2025 – Dec 2025

Co-Leader / Software Developer — Monterrey, Mexico

- Co-led a 10-engineer team that replaced Excel- and paper-based processes with a production web platform for 200+ program users.
- Built it on the T3 Stack (Next.js, TypeScript, tRPC, Prisma, TailwindCSS) with role-based access control via NextAuth, and automated delivery with GitHub Actions CI/CD and Prisma migrations.

Projects & Achievements

LeRe — AI Project Planning Assistant | Banorte — Feb 2026 – June 2026

Software Engineer — Monterrey, Mexico

- Built a LangGraph + FastAPI multi-agent platform turning a project idea into Banorte-compliant requirements, tech stack, milestones and architecture diagrams in minutes; 88% task success and 92% satisfaction in user testing.
- Owned the Tech Stack agent end to end: two-phase generation with Pydantic-validated structured output and catalog-backed validation that rejects non-approved technologies and proposes valid alternatives.
- Designed a provider-agnostic AI layer (Strategy + Factory) to hot-swap OpenRouter and Gemini models, streaming progress over Server-Sent Events; containerized backend and React/nginx frontend with Docker and deployed on Google Cloud with PostgreSQL.

CorAI — AI-Powered Wearable ECG | Prometheus-Vulcanus Research Group, Tec de Monterrey & Etalonet — Dec 2025 – June 2026

iOS Developer & Researcher — Monterrey, Mexico | 9 engineers

- Led the native iOS client (Swift/SwiftUI, MVVM) of a wearable ECG for early atrial fibrillation detection: 120 Hz CoreBluetooth streaming with WebSocket fallback to FastAPI, JWT-secured roles, and a synthetic ECG generator for hardware-free testing.

Swift Change Makers — 1st Place National of 60 teams | Enactus & Apple · Mabe Flow — CDMX, Mexico | May 2026

- SwiftUI HR assistant with on-device Foundation Models automating 10,000+ monthly interactions for Mabe's 26,000 employees.

Changemakers Social Challenge — 1st Place Regional | Enactus & Apple · Trionda — CDMX, Mexico | Nov 2025

- SwiftUI app with offline peer-to-peer messaging (MultipeerConnectivity) for FIFA World Cup visitors; advanced to National Finals.

Leadership

C.S. Student Association, Tecnológico de Monterrey — *Vice President* — Monterrey, Mexico | Aug 2025 – June 2026

- Built the partnership program for a 2,000+ student CS community (Bloomberg, Uber, Waymo, Capital One, IBM, Duolingo, EY); ran a Capital One–sponsored hackathon for 350+ students.

Skills

Cloud & DevOps: Google Cloud (GCP), IBM Cloud, Red Hat OpenShift, Kubernetes (fundamentals), Terraform, Docker, GitHub Actions.
Languages: Python, TypeScript/JavaScript, Swift, Kotlin, C++, SQL, MATLAB, Assembly.
Frameworks & Data: FastAPI, LangChain, LangGraph, React, Next.js, PostgreSQL, MongoDB, Redis, Firebase, pandas, Alteryx.
AI: Multi-agent systems, RAG, structured outputs (Pydantic), prompt engineering, watsonx.ai / Orchestrate, OpenRouter, Gemini.
